TO: INTERNATIONAL FEDERATION OF INVENTORS' ASSOCIATION – IFIA

SUBJECT: PARTNERSHIP ABOUT TECHNOLOGY COMMERCIALIZATION BROKARAGE PROGRAM and MEMBERSHIP REQUEST

Dear Honorable President Mr. Alireza RASTEGAR,
President of the IFIA

As you will appreciate, presenting and commercializing the inventions created as a result of great efforts for the benefit of humanity is a common problem of all world inventors, researchers and entrepreneurs.

In this context, we are pleased to present the global commercialization brokerage program ICCD to the international innovation ecosystem where all the world's inventors can take advantage of a common network to present their ideas and inventions to the highest level of investors and directly to producers. While doing this, they can receive one-on-one consultancy on issues that they may need from invention to commercialization road.

ICCD program, with the global power of IFIA, which can address more than 250 countries, will solve the biggest problems of the inventors, and increase the influence of valuable IFIA members in their areas of responsibility.

We hope that the program will take place under IFIA as a "Technology Transfer Brokerage Program" and that our membership request will be approved.

Best Regards,

ICCD Founders' Board Members
