# INTRODUCTION

## ★ ABOUT INNOPA

INNOPA, stands for Indonesia Invention and Innovation Promotion Association is Indonesian's first young inventors association that has been established since 2010.

INNOPA has been appointed as the only official Indonesian Inventors Association under the patronage of International Federation of Inventors Association (IFIA) and World Invention and Intellectual Property Association (WIIPA).

## ★ ABOUT IID

INNOPA has been organized Indonesia Inventors Day (IID) since 2014. IID is an international platform for inventors and research scientists to present their innovations and inventions.

Purpose of IID are,

Become a platform for the innovators around the world to perform and show their innovative projects to the international level.

Transfer technology, ideas, and experience between the innovators.

Gather the innovators to create a groundbreaking project through international collaboration and initiate a commercialization process.

Mark a place where the investor and inventor meet.
