About the 12th IEI 2026

The theme of this event is "Invention and Innovation for High - Quality Development". Special Pavilions will be set up for exhibition areas of "International Inventions", "New Quality Productivity Development", "Defence Technology", "Research Achievements of Higher Education Institutions", "Invention Achievements of Innovative Craftsman ", "Invention and Innovation of Green Production and New Material ", and "Youth Talent Invention and Innovation" to showcase excellent scientific and technological achievements and vocational skills at home and abroad. Participation in the event will be Invention and innovation institutions, international organizations from various countries and regions around the world; relevant institutions and industry associations from local provinces, autonomous regions, as well as enterprises, universities and other units .

In addition to the exhibition and exchange of excellent invention projects, a series of concurrent activities will also be held during the IEI 2026, such as "the Belt & Road and BRICS Competition of Skills Development and Technology Innovation"(BRBC); the Two-way IP project roadshow for match-making meetings and so on.

The event will be held concurrently with the 34th Guangzhou Fair, providing a wider range of opportunities for display and exchange of technologies.

The last event (the 11th IEI 2025) brought together innovative forces from over 30 countries and regions around the world, showcasing about 2500 domestic and internationally leading inventions and technological solutions, becoming an important platform for promoting global scientific and technological innovation exchange and cooperation.

This event lasted for three days and was unprecedentedly grand, attracting more than 100,000 visitors and over 1 million online live views, and it is not only showcased the latest achievements in global technological innovation, but also provided a platform for international exchange and cooperation, contributing the wisdom and strength of invention and innovation to the construction of a community with a shared future for mankind.

Welcome global inventors to join us at the 12th IEI 2026 !
